

Hadi Hamedian

SENIOR .NET DEVELOPER

Isfahan, Iran (Remote) | Hamedian.hd@gmail.com | +98 916 241 4285 | [Linkedin](#) | [Github](#)

SUMMARY

Senior .NET Backend Developer with 9+ years of experience building scalable, cloud-ready applications and designing microservice-based systems. Hands-on expertise in backend architecture, distributed systems, and clean, maintainable code.

WORK EXPERIENCE

Senior .NET Backend Developer & Technical Lead at Nexxotech – UAE (Remote)	Oct 2023 – Present
<ul style="list-style-type: none">Led backend technical design for a new FinTech platform (Persian Forex Academy) using .NET, Microservices, and Clean Architecture.Implemented distributed APIs with Redis, Docker, EF Core, and background jobs.Collaborated with multiple teams to deliver scalable backend features.Worked as a Backend Developer across two additional teams, implementing APIs and improving system reliability.Built ExchangeRateProvider, a rate aggregation module that collected exchange rates from multiple sources via an admin-defined configuration. The system applied custom aggregation algorithms, published results to RabbitMQ, and exposed data to clients via WebSocket and HTTP endpoints with authenticated access.Developed OpenDuckly, an installable SDK providing interactive API documentation and test execution, combining features similar to Swagger and Apidog. It allowed projects to expose their APIs with live testing, configuration, and auto-generated documentation.	
Freelance .NET Developer – Remote	Sep 2021 - Feb 2023
<ul style="list-style-type: none">Developed and maintained backend features and APIs for multiple client projects using ASP.NET Core and clean architecture patterns.Implemented authentication, API integrations, and optimized application performance.Modernized legacy codebases to improve scalability and reliability.	
.NET Developer at Jumbula – US (Remote)	Jul 2016 - Jul 2021
<ul style="list-style-type: none">Collaborated as part of a Scrum team of 10 .NET developers.Designed and developed a reporting microservice using CQRS and event-driven patterns, improving reporting efficiency by 40% and generating 80+ detailed reports for multiple departments.Developed backend APIs for mobile apps, ensuring seamless integration across 2 major platforms (iOS and Android)Mentored junior developers, guiding 5 team members.	
Lead Hybrid App Team at Jumbula - US (Remote)	Mar 2019 - Aug 2019
<ul style="list-style-type: none">Created an angular framework for the staff dashboard, supporting both web and mobile (Android, iOS) platforms.	
Lead Android & iOS at Jumbula - US (Remote)	May 2016 - Jul 2016
<ul style="list-style-type: none">Led a mobile development team to deliver native Android and iOS applications.Built mobile applications for managing instructor classes at schools.	

Skills

Core Backend:

- C#
- Agile / Scrum
- Mentoring
- Microservices
- Domain Driven Design (DDD)
- Clean Architecture
- Authentication & Authorization (JWT / OAuth2)
- Git
- REST
- Docker

Cloud Technologies:

- Azure (App Services, Functions, Storage)
- Azure DevOps (CI/CD)
- API Gateway (Ocelot / YARP)

Testing:

- Unit Testing (xUnit, Moq)
- Integration Testing
- End-to-End Testing (Playwright)

Databases:

- SQL Server
- Entity Framework Core
- Mongo DB
- Redis

Frontend:

- HTML/CSS/Bootstrap
- JavaScript
- Angular 8 / Typescript

Loggings:

- Serilog
- ELK

Mobile:

- Android
- iOS
- Hybrid (Capacitor)

EDUCATION

Mohajer University

Software Engineering, Associate Degree
